

# *Chainsaws that cut through the price barrier*

From our compact top-handle pruning chainsaw, to the rugged utility, to the seriously strong heavy duty model, Sanli offers occasional users and those who saw more often, a range of reliable chainsaws to suit almost every domestic application.

## Top Handle 36cc (14" Bar)

**Model number: SL-KU01-36**

The perfect choice for one handed sawing. This compact chainsaw is powered by a 1.1KW 36cc air-cooled 2-stroke engine and comes with a 35cm (14") bar. It also features a genuine USA-made Oregon chain – one of the industry's leading benchmark brands. Dry weight is only 4.6kg.

## Utility 38cc (16" Bar)

**Model number: SL-KU03-38**

The Utility saw handles small to medium sawing tasks with ease! This chainsaw is powered by a 1.2KW 38cc air-cooled 2-stroke engine and is fitted with a 41cm (16") USA-made Oregon 'Double Guard 91' bar and low profile Oregon chain. It also features a quality Walbro carburettor. Dry weight is only 5.2kg.

## Heavy Duty 45cc (18" Bar)

**Model number: SL-KU04-45**

Heavy-duty sawing needs a heavy-duty saw. Our most powerful domestic model comes with a high-output 1.8KW 45cc air-cooled 2-stroke engine and is fitted with a longer 46cm (18") USA-made Oregon 'Double Guard .325' bar and Oregon chain to tackle the bigger jobs. It also features a quality Walbro carburettor. Dry weight is 5.5kg.
