

VICTA

VAC & BLOW ELECTRIC

Perfect for hard surfaces

With a growing use of hard surfaces, increasing environmental concerns and the desire for more user-friendly products, Victa is proud to introduce the next generation of outdoor vacuum blowers – the Victa Vac & Blow Electric.

Specifically designed for hard surfaces – including paving, decking, concrete and most lawns – and easier to use than conventional hand-held or shoulder-slung designs.

Features:

- Powerful electric motor, with metal mulching impeller
- Durable, easy to manoeuvre wheeled design
 - Extra wide, low-clearance vacuum inlet, with in-built brush to assist collection
 - Ground level, high-velocity blower
 - Easy to remove, lightweight catcher
 - Ergonomic handle, with in-built power switch
 - Easy to use, single action function switch
- 12 month domestic warranty
- Environmentally friendly solution – especially when combined with one of the 'green' power sources now commonly available from your energy supplier

AS / NZS 60335
